Lives of Filipino "Friend- months. lies" Are Constantly in Danger.

ALL NORTH PROVINCES **MAKING GOOD PROGRESS**

Southern Provinces Swept by Guerilla Bands--Sneers for Benefits Brought by the American Proposals.

Mantia, Sept. 2.—The Filipinos seem incapable of realizing the scope and purpose of the legislative functions of the Peace Commission. There is no possibility of separating the legislative from the executive branches of the government, and the commission's announcement of its assumption of power yesterday, has met with childhon.

Nicaragua had informed the inter-Occanic Canal Company that its concession had been annulled August 2d of the company to deposit \$400,000 in American gold in the treasury of Nicaragua within four months after the government, and the company as tequived by Article 3s of the canal concession granted to Messra. Eye and Cragin, October 30, 1898.

This apparently leaves the Nicaragua er yesterday, has met with childhon comments at the hands of the Spanlards and foreigners, who sneer at the new arrangement as they are apt to do at every beneficial innovation on the part of the United States.

The Commission enters upon the governmental field under the following conditions: The majority of the Islanders desire peace and the resumption of business under the Americans. but they are so cowed by a long series of murderous atracities and destruction of property by their armed comp trymen that they dare not actively show their feelings, especially because experience has taught them what such an expression of sentiment will bring steamboats, lighters, etc., referred to in upon them from the merellessly re-the concession they received. This vengeful rebels. A genuine regin of the Alas Steamble Grands of the Grands of the Alas Steamble Grands of the Grands terror is exercised by insurgents and ladrones over peaceful country folk in order to collect the revenue and recruits the operations require, and widespread vengeance is wreaked in the vicinity of garrisoned towns.

For example, the insurgent Gan Cailles, in the province of Laguna, puto death the president and office holders of the town of Bayo Laguna de Bay, officials who had been installed by the Americans, and gave orders that a similar fate should be meted out to other adherents of the American cause. He ordered that all of the Filipino soidiers who sold their rifles to the Amercans, should be killed. Any change of policy involving the withdrawal of the United States troops, without substituting for them an adequate defensive force, is certain to result in fearful retaliation at the expense of the "friend-

One powerful organization is distributing thousands of copies ation unfavorably. In northern Luzon quiet and engaged in planting, except in the provinces of Nueva Ecija and of a reform appeal in the British col-Bulacan, where there has been a recent outburst of rebei and ladrone activity. But in Southern Luzon conditions are far less satisfactory. Life ommends establishing Nanking as the ditions are far less satisfactory. Life is not safe outside the garrison towns. Travelers are subject to ambush by guerillas. Rarely does a day pass without an encounter between the FOR TYPEWRITERS troops and the insurgents or ladrones. resulting in casualties. There are 18,-000 troops in that district. Gen. Bates commanding, and in three regiments

over a third of the men are sick. The activity of the enemy increased last month. There is evidence that the insurgents have come into possession of new rifles and that they wish to annihilate some small American gar

Conditions in the Visayas continue virtually unchanged. The lack of troops in Samar prevents aggression. Negros, Rombion, Masbate, Sibuyan. Tablas and Bohol, are tranquil,, all desiring civil government. Mindanao is also tranquil, except in the districts of Teagayan and Jurigam, where occasional encounters with the Filipinos occur. The enemy's fighting force there is limited, but it has a number of rifles. The surrenders, although they have notably decreased since May, con-

tinue. The experience of Northern Luzon shows that the American occupation of any locality tends to its pacifica tion and well being. An unsettled American policy retards the investment of capital. Nevertheless, the imports of last quarter and a half were greater than during any period of the Spanish regime. The internal revenue coileztions are a third greater than those made by Spain. This is due to an honest system of accounts, lack of favoritism and to impartial enforcement

The Commission wil hest organize municipatities in the provinces, notably in Pampanga province. Canal Company Loses Its Charter

FLAME OF REBELLION

NEW YORK, Sept. 5 .- A dispatch to the Herald from Hongkong says: In-fluential natives state that the flame of rebellion has been fanned in the southern provinces and predict a tremendous conflagration within a month. Placards and pamphlets are being circulated in Canton and the provinces intimating that the allies are thoroughly routed. The feeling against foreigners is burst-

ing the bounds of official control. The majority of the mission stations in Kwang Tong have been either destroyed on looted. Native Christians are terribly abused. Natives in foreign employ in Canton have been threatened and a systematic looting of the houses of English assessing Chipan. the houses of English-speaking China-

men has taken place.

Several reform parties, with their headquarters in Hongkong, who have been supported by funds from rich Chinese in the interior and in America, have hitherto refrained from against the interior parties. indum has been signed by 200 names for presentation to the capital and the selection of enlightened Chinese officials administer the govern-ment, with foreign advisers.

These people are disheartened at the reported intention of the powers to withdraw from China. Different so-cieties are combining to raise the standard of revolt and overthrow the

corrupt government.

The practical cessation of trade with the north has thrown thousands of Chi-nese in each port out of employment and they are ready to join the rebels. French aggression at Swatow and Japanese aggression at Amoy intensify the hatred of the foreigners. The strike of coolies at Hongkong is

GERMANY DOUBTFUL.

BERLIN, Sept. 5.—"It is doubtful," said a foreign office official, "whether the foreign ministers have yet received instructions from their governments as to the matter of withdrawing the troops, which will meet with greater difficulties than that of withdrawing the ministers, for if the troops are withdrawn all the foreigners must go, also, because the natives would murder them and claim it as a triumphover the powers, thus creating a bad impression upon the Chinese.
"In various countries the rewarances."

"In various countries the newspapers are exaggerating the situation. There is no question of disagreement yet for Russia's proposition is merely under dicussion. It has neither been accept-ed nor rejected."

Chinese Not Wanted.

Lima, Peru, ept. 2.—The Peruvian Senate yesterday had under considera tion a proposal for preventing Chinese immigration, in view of a possible exodus from China as a result of the present disturbances, The Government publicly announces

today that the new Peruvian customs schedule will go into force January 1.
